

PROJEKT INFORMATION

Global Environmental Services Framework – Implementation Update

As part of the implementation of the Global Environmental Services Framework, the Environmental Services Framework Implementation Plan (ESFIP) was developed. The ESFIP is a key document that outlines the implementation strategy and provides a roadmap for the implementation of the framework. The ESFIP is a living document that will be updated as the implementation progresses.

Key Messages

The ESFIP is a key document that outlines the implementation strategy and provides a roadmap for the implementation of the framework. The ESFIP is a living document that will be updated as the implementation progresses. The ESFIP is a key document that outlines the implementation strategy and provides a roadmap for the implementation of the framework.
